 Merchants Metals®
the first name in fence solutions

Timeless Beauty

Your land and home represent the visible expression of your accomplishments in the world – now crown these with the timeless beauty of Vintage Square® traditional aluminum fencing. The classic grace and style of Vintage Square® set it apart for the elegance, endurance, and value it adds to your home.

Our reputation for quality has been built over the past 50 years, and our pride shows in Vintage Square® fencing. Made of high-strength 6063-T5 aluminum, Vintage Square® is as durable as it is beautiful, perfect for residential

SULTAN FENCE STYLE

SULTAN FENCE STYLE

and light commercial applications. Our TGIC polyester powder coating strongly resists sun, water and scratching—no rust, no maintenance, no worry—just natural harmony. With Vintage Square®, installation is your last fence expense.

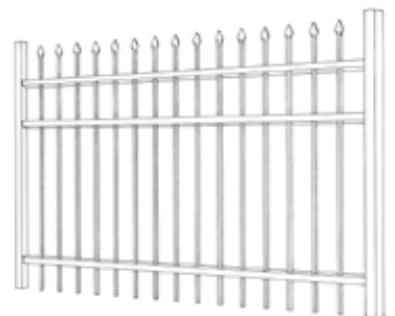

Vintage Square® fencing is available in four heights, two picket sizes and many styles. We ship it factory-packaged in reinforced cardboard to ensure that it arrives in perfect condition.

Celtic

Clean lines with a flat top, 3 rail design available in 48, 60 or 72 inch heights.

Sultan

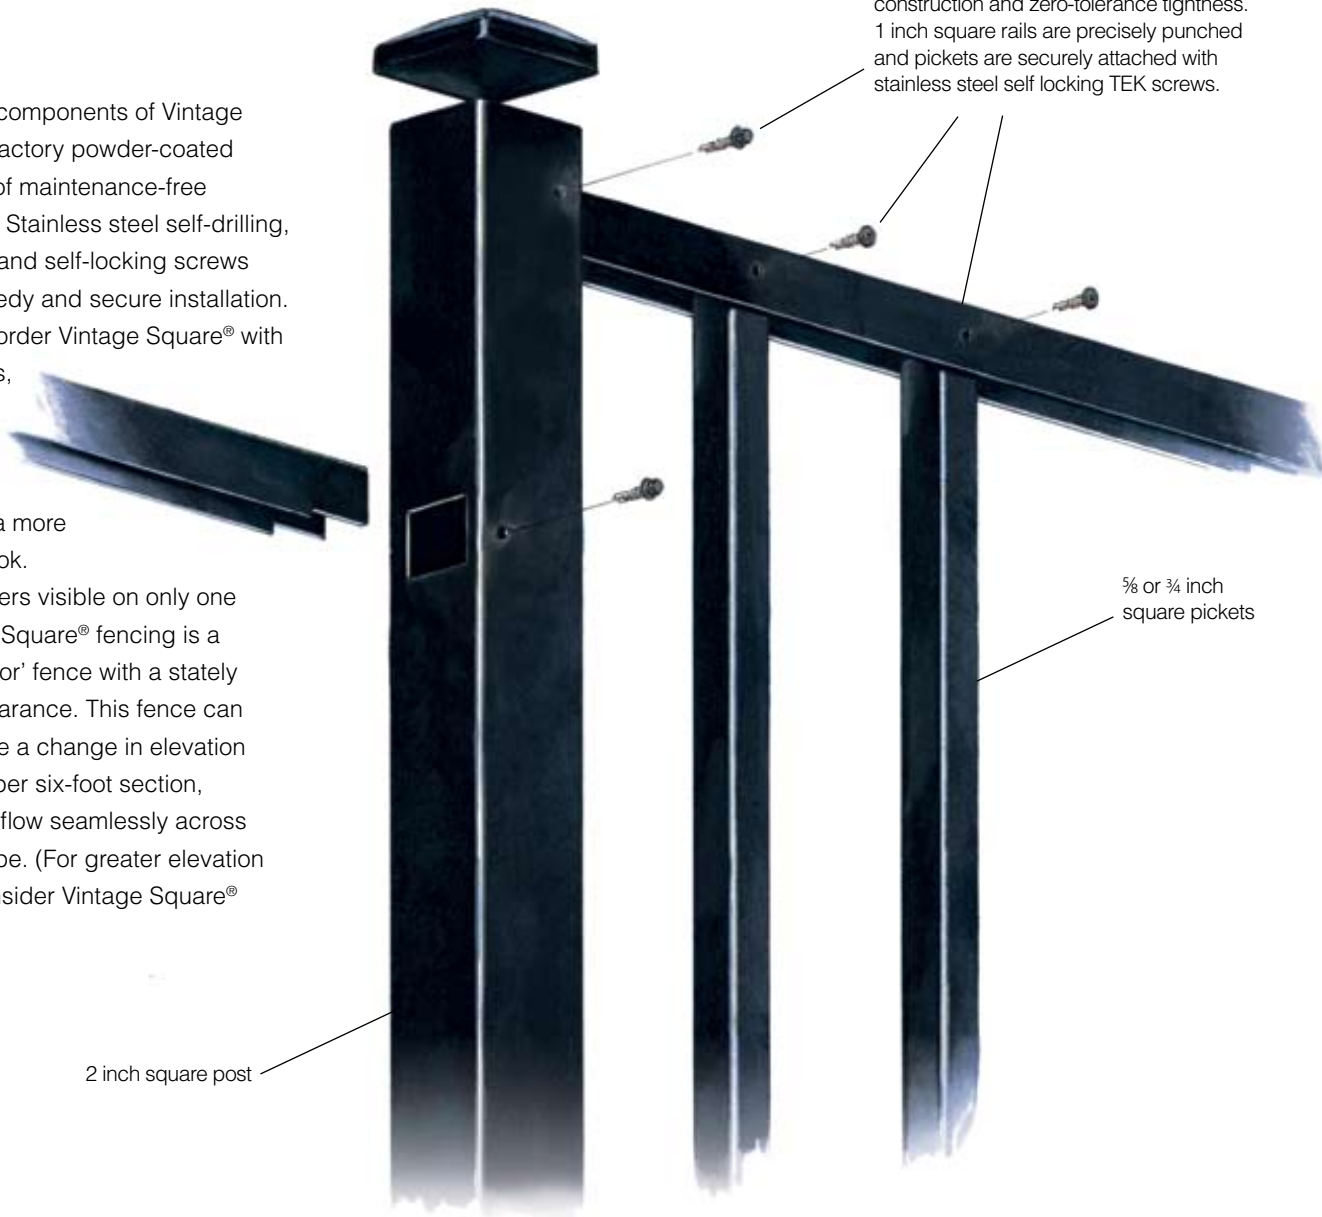

Authoritative spear picket, 3 rail design available in 48, 60 or 72 inch heights.

Built to Last

All structural components of Vintage Square® are factory powder-coated for a lifetime of maintenance-free performance. Stainless steel self-drilling, self-tapping, and self-locking screws ensure a speedy and secure installation. Most people order Vintage Square® with 5/8 inch pickets, but 3/4 inch pickets are also available for a more substantial look.

With fasteners visible on only one side, Vintage Square® fencing is a 'good-neighbor' fence with a stately exterior appearance. This fence can accommodate a change in elevation of 12 inches per six-foot section, enabling it to flow seamlessly across your landscape. (For greater elevation changes, consider Vintage Square® Premium.)

Stainless steel fasteners form seamless construction and zero-tolerance tightness. 1 inch square rails are precisely punched and pickets are securely attached with stainless steel self locking TEK screws.

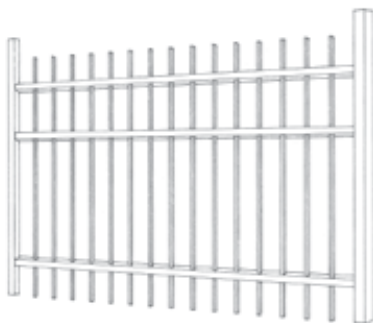

Coronet

Exotic flat-topped panel with alternating spear picket up top, 3 rail design available in 48, 60 or 72 inch heights.

Seville

Elegant 3 rail design available in 48, 60 and 72 inch heights. Add optional finials to pickets to enhance its beauty.

SULTAN FENCE STYLE

The Perfect Choice For Your Pool

Aluminum fencing is the first choice in areas where moisture, salts or chemicals would quickly destroy steel—and the Vintage Square®

AQUA SERIES is the ideal solution for pool enclosures.

To meet 2003 International Building Code (IBC) requirements for swimming pool enclosures, the distance between 'step points' (the bottom rail and the rail above it) must exceed 45 inches to prevent anyone from climbing over the fence, and pickets must be spaced less than 4 inches apart to

OPTIONAL MUSHROOM TOP RAIL

CELTIC POOL FENCE STYLE WITH OPTIONAL MUSHROOM TOP RAIL

prevent children from squeezing through. We offer four IBC-compliant fence designs in three different heights*.

To ensure that our fence lasts as long as your pool, our advanced manufacturing and coating processes employ only the highest quality materials, and our exacting attention to detail shows in every aspect of construction. From post to finial, we rest our reputation on the maintenance-free durability and good looks of our fence.

With Vintage Square®, you can enjoy your pool—without worrying about your fence or uninvited guests!

* Always verify the local code requirements for swimming pool enclosures in your area before proceeding with installation of any pool enclosure fence.

CELTIC POOL 3 RAIL FENCE STYLE

Celtic Pool 2 Rail

Clean lines with a flat top and flush bottom, available exclusively in 48 inch height.

CELTIC POOL FENCE STYLE

Celtic Pool 3 Rail

Clean lines with a flat top and flush bottom. Popular 3 rail design available exclusively in 54 inch height.

Custom Sultan

Authoritative spear picket, 3 rail design with custom rail location to meet IBC codes. Rail specifications available exclusively in 60 inch height.

Coronet

Exotic flat-topped panel with alternating spear picket and flush bottom. 3 rail design available exclusively in 54 inch height.

Welded gates.

Vintage Square® ‘No-Sag’ gates are fully welded at all contact points and incorporate a solid reinforcing rod, giving them great internal strength and rigidity, superior to gates in which pickets are screwed to rails. Standard spring-loaded self-closing hinges and the optional latch feature the same powder coating as our posts, rails and pickets,

making them durable, dependable and attractive.

Gates are available in heights of 48, 54, 60 and 72 inches to fit openings of 4,

5 and 6 feet. We also manufacture custom estate gates to match Vintage Square®. Please consult your local service center regarding availability and pricing.

Available Heights		48, 54, 60 & 72 inches
Standard Color		Black

Custom Features

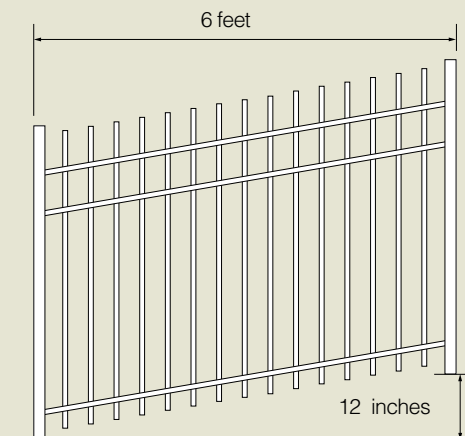

Mushroom Top Rail
1 x 1 ½ inch

Flat Top Rail
1 x 1 ½ inch

Enhance the beauty of any Celtic or Coronet panel with the optional Mushroom Top Rail. Mushroom Top Rail must be specified at time of order placement because the panel is manufactured to incorporate the custom rail design. The custom rail is a one-piece design to insure panel strength and integrity.

Each 6 foot wide foot section accommodates elevation changes up to 12 inches.

Our Finish: A factory-applied TGIC polyester powder coating provides a beautiful maintenance-free finish with superior coverage of all surfaces, including edges. This coating more than meets today's industry standards for quality and is far more durable, fade-resistant and scratch resistant than comparable painted finishes.

Our Warranty: We stand behind our fencing with a limited lifetime warranty that covers all components of the fence system. See your local distribution center for details.

Accessories & Hardware

Standard Aluminum Hinges

Wall Mount Bracket

Adjustable Swivel Bracket
